

Sleek compact design for portable exam environments

Tilt-and-swivel monitor for optimal viewing during procedures

Customizable control panel to personalize your user interface

Dual touch screens streamline exam workflow

A Clear Vision

Ultrasound reimaged for ease of use in point-of-care applications

Born of a vision to deliver meaningful design innovations that benefit the user, the Acclarix AX8 features a host of design breakthroughs that make day-to-day operation in point-of-care environments easy, fast and intuitive. The result is an elegant simplicity where form and function meet at the tips of your fingers.

- Unparalleled image quality with one-key optimization
- Application-specific exam and imaging presets
- Unique gesture-control user interface
- Tilt-and-swivel, HD, anti-glare monitor
- Completely sealed control panel to aid in maintaining infection control
- Needle visualization technology improves needle identification

It's a Tour de Force for Point-of-Care Ultrasound

Redefining innovation through value and performance

It's the dawning of a new day in the world of point-of-care ultrasound—and it turns out you really can have it all. The remarkable Acclarix™ AX8 Compact Ultrasound System delivers a powerhouse combination of features to meet the demands of point-of-care imaging. The Acclarix AX8 has been designed from the ground up with a relentless focus on delivering unexpected levels of innovation and performance at a price point that is equally surprising.

- Definitive Imaging
- Intelligent Workflow
- Distinctive Design
- Intrinsic Quality

Stunning Clarity

Definitive imaging

Sleek design and user-friendly features are just part of the story. The Acclarix AX8 is designed to deliver amazing clarity and stunning image quality quickly—eliminating the need to tweak imaging controls.

- High fidelity, high-channel count architecture results in superb detail resolution, particularly at depth
- Tissue Adaptive Imaging (TAI) continuously and automatically optimizes imaging allowing more focus on the patient
 - In B-mode, TAI fine tunes multiple parameters to provide the best possible image quality
 - In Doppler, TAI automatically adjusts for flow state providing improved continuity, border detection and fill-in

The Virtue of Value

How can Edan deliver so much innovation AND so much value? By capitalizing on the experience and expertise of a truly global enterprise. Acclarix technology is the result of Silicon Valley innovation and engineering excellence combined with Chinese design and manufacturing proficiency. The Acclarix AX8 delivers unmatched value and performance across a broad range of applications.

- Musculoskeletal
- Anesthesia
- Emergency Medicine
- Critical Care
- Interventional Radiology
- Pain Management
- Rheumatology
- Surgery
